## PROFILE

---

Flutter developer with 4+ years of experience building and shipping cross-platform mobile apps for iOS and Android. I own the full product lifecycle design, development, and store release and run my own indie studio (Svelte Solutions) with multiple live apps shipped.

## PROFESSIONAL EXPERIENCE

---

### Flutter Developer

Svelte Solutions [🌐](#)

2023 – Present  
Pakistan

- Founded and operate a solo indie app studio designed, built, and shipped multiple Flutter apps live on the App Store and Google Play.
- Own every stage of the product lifecycle: UI/UX design, Flutter development, backend integration, monetization, and store release.
- Implemented RevenueCat-powered subscription paywalls with entitlement-based feature gating and AdMob integration for free-tier users.
- Built iCloud sync for a finance app using Drift (SQLite), the archive package, and the icloud\_storage plugin, enabling seamless cross-device data backup.
- Developed local network sync (LAN) via Flutter's shelf package and multicast\_dns, allowing offline desktop access to app data without cloud dependency.
- Integrated Firebase Crashlytics for production error monitoring across all app tiers.

### Flutter Developer

Mandible [🌐](#)

12/2023 – 12/2024  
Remote

- Built a cross-platform Flutter app (iOS, Android, Web) for an AI-powered community platform serving dental professionals.
- Developed feature-rich mobile UI components, integrating a Dart backend for API communication.
- Collaborated remotely on a production codebase, contributing to code quality, performance, and release cycles.

### Flutter Developer
